

No. 12 413

7 November 1955

TO: 132/A

FROM: 855

SUBJ: V-15775

REF: Conversation with 132/A, 4 November 1955

Inquiries at the United States Consulate, Munich, have produced the information that V-15775 was given a physical examination preliminary to processing for emigration in February 1955. At this time it was discovered that V-15775 suffers from pulmonary tuberculosis. According to United States law, another physical examination one year from date of the first is mandatory; this would appear to be the reason for the examination which is scheduled for February 1956.

While the law is strict in such matters, Consular officials have stated that expert medical opinion will be solicited in this case in addition to the examination next February.
